

Series C

Compact, standard and modular

Compact, standard and modular

Thanks to the innovative "Real Weight" dynamic measuring system, HSC350 can be used **without the need for calibration or product learning procedures required** by the majority of the "peak weight" weighing machines available on the market.

The HSC350 "C Series" checkweigher is the compact, modular, cost-effective solution that integrates into the quality control line when space is at a premium.

Sturdy and flexible, it can be easily fitted with a Metal detector plus display and labelling systems.

INTEGRATION WITH PRODUCTION LINE

The extensive standard range allows the machine to be selected and sized to suit specific production and application requirements, as well as to meeting the clients needs and budget.

HSC350 "C Series": the system can be easily sanitised thanks to its special shape which featured flat, easily accessible surfaces.

Available in many different configurations with 1 to 5 conveyor belts and width measurements ranging from 90 mm to 400 mm, for conveying all types of packaged products.

HSC350	/01	/03	/06
Scale range	1.500 g	3.000 g	6.000 g
Resolution (d)	≥ 50 mg	≥ 0,1 g	≥ 0,2 g
Division (e)	≥ 0,5 g	≥ 1 g	≥ 2 g

A story about success
