STAT350

Data acquisition software

Series R

Chain checkweigher for high speeds

The **food traceability and re-traceability laws** have added a further degree of complexity to the industry. The management software created by NEMESIS is an excellent solution to these problems.

STAT350 acquires indications about the origins of the products, as well as the events and variations that may have occurred during the individual production phases, **thereby complying with the HACCP recommendations.**

Strong, fast and precise

The HSC350 "R Series" chain checkweigher combines **unrivalled sturdiness**, high precision and a design created for use in extreme industrial environments.

CUSTOMER AND SUPPLIER ARCHIVE

ON-LINE ANALYSIS

BATCH STATISTICS REPORT

3-CHANNEL PROGRESSIVE SORTER

DIAGNOSTIC AND ALARM SYSTEM

CAN MONITORING

Amongst others, the program provides the following functions:

- Real time display of the production lot reports
- Control of up to 32 HSC350 units by a single PC- Management of the product

archive with definition of all the parameters

- Real time display of the production Data, plus data storage for future process.

Available in numerous configurations, with 1 to 4 chain conveyors and width measurements ranging from 50 mm to 230 mm, for checking cans, jars and bottles.

HSC350	/01	/03	/06	/15
Scale range	1.500 g	3.000 g	6.000 g	15.000 g
Resolution (d)	≥ 0,1 g	≥ 0,2 g	≥ 0,5 g	≥ 1 g
Division (e)	≥ 1 g	≥ 2 g	≥ 5 g	≥ 10 g

A story about success
