

Serie H

Ergonomica, capace ed affidabile

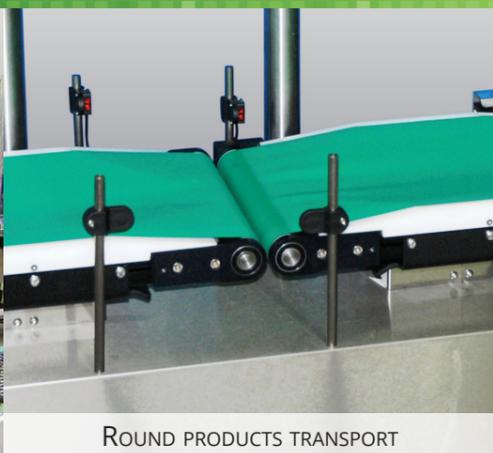

The demand to weigh and sort large, heavy products is increasing in today's markets.

The HSC350 "H Series" checkweighers offer a solution to this demand as they are able to handle and weigh loads of up to 60 kg at high speed.

Reliable,
robust,
easy to use

REJECTOR FOR BOXES

With our focus on product handling and production rate, we ensure accurate measuring in all our equipment which guarantees our customers return on investment.

Our comprehensive range of product sorter and rejector devices ensure that the weighing system remains accurate when rejection operations are in progress.

Available in many different configurations with 1 to 4 standard or modular conveyor belts and width measurements ranging from 180 mm to 800 mm, for conveying bags, boxes and drums.
